Allow no more than 2" around photo. Any identifying logo on your print will be automatically disqualified. Any print which does not fit the category that it is submitted will be disqualified.

Digital Manipulation Category – Original 4" x 6" photo(s) must be fastened to the back of your edited photo.

Macro Photography Category – The object should be photographed and printed larger than life size, and the center or most important part of the object very sharp and the rest of the photo out of focus. This takes a special lens and/or manual settings resulting in a very short depth of field. There are many internet sites with good information.

CLASS 9 – PHOTOGRAPHY

Photos should be no more than 2 years old and have no obvious digital manipulation. See Digital Manipulation Category. Photos may have a title, but a title is not required. Due to space limitation, junior exhibitors may enter a maximum size of 8 x 10, adults 11 x 14. No Frames-photo to be mounted on foam/poster board with or without mat. Allow no more than 2" around photo. Any identifying logo on your print will be automatically disqualified. Any print which does not fit the category that it is submitted will be disqualified.

Digital Manipulation Category – Original 4" x 6" photo(s) must be fastened to the back of your edited photo.

Macro Photography Category – The object should be photographed and printed larger than life size, and the center or most important part of the object very sharp and the rest of the photo out of focus. This takes a special lens and/or manual settings resulting in a very short depth of field. There are many internet sites with good information.

What Is the Judge Looking For?

Impact, center of interest having good focus and light, difficulty, creativity, proper composition and cropping; detail in shadows and highlight areas.
